Profile

A passionate Front-End Engineer with hands-on experience in building responsive, user-focused web applications. Currently pursuing a Bachelor's Degree in Computer Science at the British University in Cairo, with a GPA of 3.1. Certified by Meta in Front-End Engineering, with expertise in modern web technologies including React.js, JavaScript, HTML, and CSS. Demonstrates a proven track record in developing and optimizing web platforms, focusing on enhancing user experience, performance, and engagement.

Employment History

WordPress Developer | Freelancer at TheTrendUp

Jul 2022 – Jul 2023, Cairo

- Optimized website performance by developing and enhancing 6+ responsive web pages for a car shipping company, improving page load speed and reducing bounce rates.
- Streamlined operations for a dental clinic website by integrating booking and CRM platforms, reducing appointment scheduling time and improving customer engagement.
- Increased conversion rates by creating a marketing-optimized website for a landscaping company, resulting in better campaign performance.
- Boosted lead generation by developing dynamic, interactive booking forms for a marketing company, achieving significant lead growth within three months.
- Enhanced user engagement by building high-converting landing pages with custom forms.

Websites Developed:

- [Paste.Dental](#): A sleek, high-end website for a dental clinic with premium design.
- [Autoshippers](#): A responsive website for a car shipping company focusing on speed and customer engagement.
- [Quality Landscapes](#): A visually appealing platform for a landscaping company.
- [Invisalign by WeSmile Dentistry](#): A custom-built site for promoting Invisalign services.
- [Nitrods](#): An interactive platform showcasing vehicle parts and services.
